## REASONS FOR FUND

Wall Lake, like all lakes in Michigan and the United States, is facing environmental and invasive species threats. These threats will bring more challenges in the future as we work to preserve a wonderful natural resource.

In late 2014 several Wall Lake area residents approached GLWA Board

Members concerning a way to financially support the Association beyond annual dues and donations. We needed a way to donate money or other assets that is specifically targeted to costs associated with the preservation of the Wall Lake. In addition, some donors were looking for a way to leave money/assets to the GWLA in the their wills as part of estate planning.
